Valdama

May 19, 2017

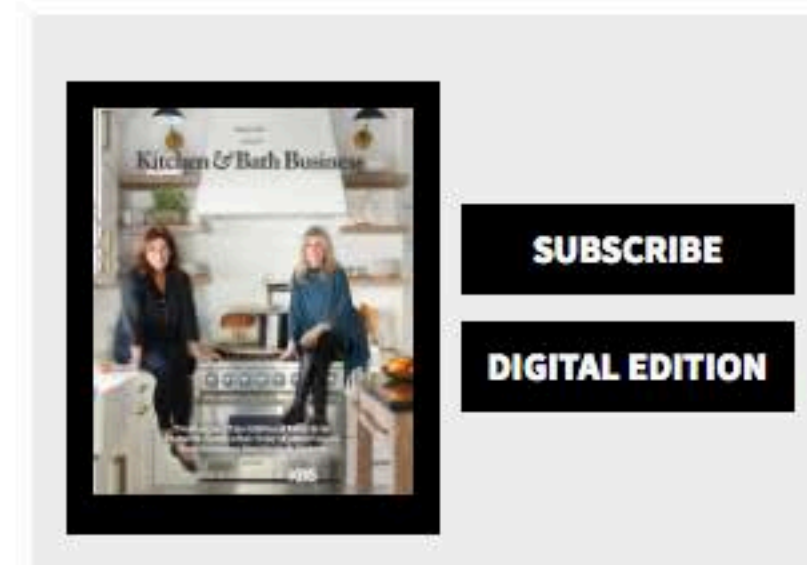

Designed by Prospero Rasulo for **Valdama**, Cameo interprets the archetypal forms of geometry, transferring them to craftsmanship and to creating unexpected volumes.

The collection of Cameo washbasins is characterized by the outer frame of the basin, a visual and functional element that creates diversely distributed tops to integrate the taps and store bathroom accessories.

The washbasins are designed to be wall or console mounted, but there is another standalone version placed on a tubular metal structure.
